

# **HALT THE INVASION ACT**

---

## **Background:**

Governor Abbot has directed the Texas Military Department to seize control of Shelby Park in Eagle Pass, Texas, to prevent President Biden and Secretary Mayorkas from facilitating the invasion at the Southern Border and to protect border barriers in the area under threat of being removed by CBP. Days later, the Supreme Court ruled that the Biden Administration may begin to remove any border barriers set up by the State of Texas along the state border. Currently, Governor Abbott is holding the line, maintaining control of Shelby Park, and setting up more border barriers to deter the invasion. Texas will soon face the full force of the weaponized Biden Administration simply for securing the border, and he will need support to continue holding the line.

## **Congressman Rosendale's Bill Would:**

- Codify Texas' authority to secure the border.
- Defund any action from the federal government from interfering with or regaining control of Shelby Park until the State of Texas consents.
- Reimburse the State of Texas for the costs of maintaining Shelby Park as long as these costs do not exceed what it had cost the federal government to control Shelby Park.
- Asks the State of Texas to provide data on illegal immigrant arrests, drug seizures, and other data taken by the state of Texas (information Texas already provides to the general public), in exchange the provisions of this bill continue until Texas ceases to provide this information.

## **Co-sponsors:**

Congressman Brian Babin (TX-36)
